

BRIEFS.

— Snow fell yesterday.
— Jack Frost has come to town.
— He intends to stay here six months.
— Luther, has your rule the epizooty?
— "Dip," have you heard from Boston?
— Jefferson county has ten newspapers.
— Oswego county has eleven of them.
— The Watertown Times says it will take ten turkeys to go around.
— We doubt whether eleven would suffice in our county.
— The winter term of our Academy will open Tuesday, Dec. 3.
— An editor who was going courting said "he was going to press."
— The fall term of Mexico Academy closed on Friday.
— The autumn term of Pulaski Academy did pretty much the same.
— Mexico horses are getting better. The bus goes to the depot again.
— Don't eat any supper at home to-morrow (Friday) evening, but go to Mayo's Hall and get something good.
— If this is a borrowed paper you are reading, "drop it." Your neighbor don't pay his money to lend you.
— Another engine, the "Sodus," has been placed upon the Lake Ontario Shore railroad.
— The Watertown Times doesn't know how beautiful snow and the epizootic are to be reconciled. Let him ask the boys.
— Ferdinandrankent is the name of the horse disease when applied to chickens.
— The Syracuse Northern Railroad will charge only half fare to students of Mexico Academy.
— Rev. J. Muzzy is much better and expects to be able to occupy his pulpit next Sabbath.
— Thanksgiving Services will be held in the Methodist church in this village. Sermon by Rev. J. P. Stratton.
— It is late for ducks on our creeks. But several boys, while skating on Wednesday, took a ducking, and on reaching home received a dressing.
— Rev. Edward Stratton, brother of Rev. J. P. Stratton, of this village, has been called to the Presbyterian church at Fayetteville.
— Be sure to get tea at Mayo's Hall to-morrow night. It won't cost much, and the ladies are going to do something for your comfort with the money they get.
— The N. Y. Tribune says: The horse epidemic has had one good result—people have discovered that legs were made to walk with.
— Watertown had a foot of snow on Saturday, and the morning train from the north was late forty-five minutes, having had to shovel out twice.
— I. D. Smith, Esq., has moved to his country residence. We hope to pay him a visit soon, and be received in a becoming manner.
— At Scriba, November 10; fifteen persons were baptized at the Methodist Episcopal church, ten by immersion and five by sprinkling.
— Tickets are now issued by the Syracuse Northern Company, over the Rome, Watertown, and Oswego road and over the Utica and Black River road.
— There has been a great improvement in sidewalks and crosswalks in our village recently. Private individuals and the authorities have our thanks.
— "No warmth, no cheerfulness, no healthful ease; no comfortable life in any member; No shade, no shine, no butterfies, no bees, No fruits, no flowers, no leaves, no birds, No venner!"
— Our young friend, Ira Lee, has established a Gents' Furnishing Store in Fulton. He is a most excellent young man, and a host of friends will unite with us in wishing him prosperity.
— Europe is disturbed over apprehended "complications with Turkey." Happily for America, its complications with Turkey did not begin until after the middle of this month.
— A young lady has just learned that a style of bonnet worn years ago was called "kiss-me-quick," and she can't understand why they were suffered to go out of fashion.
— We are authorized to state that S. L. Alexander and his horse have both recovered from the epizooty. Mr. A. desires to return thanks for the great sympathy felt for him and his noble steed during their severe illness.
— T. J. Temple made us a present the other day of some very fine oranges just received from a plantation adjoining his own in Florida. He has a barrel of these oranges for sale. They are worth seeing even if you don't purchase.
— Mr. Devendorf, of Union Square, presented us a few days ago with a string of premium onions. Mr. D. always remembers the printer, and he always has good onions. Doesn't effect follow cause?
— It is said that on an average one ton of coal is equal to two cords of wood, and on an average throughout the country a ton of coal costs about as much as a cord of wood. The excess in the heating power of coal over wood is as two to one.
— The Board of Supervisors met at Oswego on the 12th, and organized by electing John P. Slocum, Chairman, and Chas. T. Richardson as Clerk, and after transacting the usual business, adjourned to meet at Oswego on Monday, Nov. 25th.
— A number of our citizens have big necks, sore throats, a trouble at the nostrils and a wheezy cough. All epizootic. The affliction is almost as severe upon their wives, because it keeps their husbands indoors and causes annoyance and trouble in the kitchen.
— The Syracuse Standard compliments the INDEPENDENT on its enlargement and new dress, and says it is edited and published by a competent man. We think we can hear about as well as most people, and as for talking—well, we suppose the editor of the Standard never heard us.

—Oswego young men are happy. Whenever a ball occurs now, \$10 carriage hire forms no part of each man's bill of expenses. Poor clerks and bon-ton maidens are now on the same level, and go to the ball, if they go at all, on foot.

Social Tea.

The ladies of the Presbyterian Society of this village will give a Social Tea at Mayo's Hall, on Friday evening, the 22d inst. Tea served from 6 till 9 o'clock. Admission 10 cts. Supper tickets 25 cts.

Closing Exercises.

The school in District No. 8, kept by Mr. Ladd our newly elected School Commissioner, and Mrs. Ella Baker, closed on Friday last with interesting exercises. The speaking by the little we ones was charming, being done in their own simple child-way, while some of the older ones declaimed in a manner which would have done them credit at the Academy. There were two well acted dialogues, and the audience, whom many who were obliged to stand, proved by their close attention by abandoning seats in order to see better that the exercises were anything but dull.

At the close the scholars testified their love for their teachers and their appreciation of their services by presenting to Mr. Ladd a fine picture, and to Mrs. Baker a butter knife, pickle fork, sugar spoon and cream spoon. Mr. Ladd returned thanks in behalf of Mrs. Baker and himself, but was too much affected to speak fluently.

What interested us most of anything was the reports and the remarks accompanying them. It was pleasant to learn to such evidences of the mutual sympathy of teacher and scholars and to know that so many had striven to do well. Mrs. Baker gave prizes to four little girls for being foremost at the head of their classes. These were Annie Peck, Libbie Gray, Addie Burrows and Kittie Becker. The prize for good spelling, which had been very earnestly contested in Mr. Ladd's room, was carried off by Medalia Howard. Only one below her were "Nicky" Knight and John Sovereign who had the school continued a day or two longer, might have stood her equal. But they had earned for themselves the rare honor of being reported perfect in deportment and recitations, standing just as high in the school as they could stand, having made not one failure in anything. This is indeed success.

It is with great regret that the officers and patrons of the school resign Mr. Ladd to his official duties. For more than four years the school has been under his management and tuition and during that time has been most successful. If Mr. Ladd proves as good a commissioner as teacher, as we believe he will, the educational affairs of the 3d District will have fallen into excellent hands.

He is to be succeeded in the school by George Myers, who comes well recommended.

OUR YOUNG MECHANICS.—Perhaps our readers are unaware that two young business men of considerable enterprise have been for some time at work in their midst, carrying on their respective trades with considerable success. They put out no signs—they have made no loud noise in the street, and they have even neglected printer's ink; but if they have not yet fully appreciated our valuable assistance, we propose to thrust greatness and notoriety upon them.

Our friend Carl Stone has provided himself with a complete outfit of stencil discs, and is prepared to stencil plates for any who may desire them. We have seen his work, and do not hesitate to say to merchants who would mark their shipments, mechanics who would put their imprint on their wares, and to farmers who would mark their grain bags and tools, go to Carl Stone. And here a word to farmers. When you make a good tub of butter, or pack a good barrel of apples, or put any other product upon the market, let it be such that it will reflect credit upon you; and put your name on it, that you may get the credit. To be found at B. S. Stone & Co's store.

A few days since we found our former "devil," Fayette H. Peck, busily engaged upon a machine which he himself had made, sawing brackets and other articles of iron work; and from the tact, skill and energy with which he worked, we felt sure that he would soon supply the market with nice work, at prices far below the usual cost of such articles. We understand he is constantly improving his machinery and his methods of finishing, and that he is determined to be satisfied with nothing less than the best. His wares are sold by Galt & Richardson and Mrs. Temple.

Patronize and encourage the boys.

REAL SYMPATHY.—Grace Methodist Church, Chicago, was the first church in the city to forward a telegram like the following:

J. P. MAHER, 38 Bromfield St., Boston: What can we do? Grace Church Committee ready for action. M. M. PARKMAN.

Considering that their own church edifice, which was burned down last year, is not yet completed, this is a beautiful exhibition of Christian sympathy, and just what might be expected from such a people and such a pastor.

NEW YORK TIMES.—Mr. L. T. Alfred is getting up a club of subscribers for the New York Weekly Times—one of the ablest and best Republican papers in the country. As donations the club will be quite large, the subscription price will be very low. Leave your names at the Post-office.

HARPER'S.—Those who want the foremost Magazine of the day, and a Weekly paper splendidly illustrated, also a Weekly Journal of Fashion, will do well to subscribe for Harper's Magazine, Harper's Weekly, and Harper's Bazar. See advertisement in another column.

CHRIST CHURCH (Universalist).—Regular services every Sunday, at 2 o'clock p. m. All are invited. Seats free. Rev. James Vincent, Pastor.

Boots for boys, Boots for youths, Boots for men at WADSWORTH'S.

NEW TEAS.—Splendid quality; lower prices; go and see at Hoose & Cobb's.

If you want pictures, picture frames, books, music, musical instruments, toys, &c., the place to buy them is at Virgil's Book store. Call and examine his stock.

Mr. E. Trowbridge's dog has the horse disease. He can neither eat, bark nor bite.

PARISH.

All hail! We welcome, thrice welcome the MEXICO INDEPENDENT with its nice new dress. Its heading, how beautiful, and yet unlike its county contemporaries! We would call the INDEPENDENT all manner of beautiful names, such as elegant, charming, attractive, etc., etc.; but we could only call it what all its readers instinctively call it, without our reiteration. The new dress of the INDEPENDENT reminds its correspondents that they must print up likewise. Yes, fellow-correspondents, our language must be more elegant, our thoughts more deep, original, independent and interesting, our delineations more fascinating and yet truthful, and our patience inexhaustible. If we are criticised, let us be philosophical; if we are abused, let us be good-like; if we are joked, let us be poetical; if we are flattered let us be silent; if we are dry and monotonous sometimes, let us have a gentle check from the editor with his remarkable composure. As for ourselves, we mean to do a little better than we have done. We are going to try to fill our ideal of what we think a correspondent should be. According to understanding, the readers of the INDEPENDENT will hear from us oftener than hitherto. We do not propose to confine ourselves altogether to news, but will have something to say upon things of interest in general, but all persons' opinions will be respected.

We have no special news of importance, except a woman was seen at an evening since intoxicated in our streets. It was a sad scene, and it seems to us that its sight would be a great corrective to men, and cause them to pledge themselves never to drink again of the "dark beverage of hell."

The majority of the voters of the 2d Com'l District have discarded partisanship and elected Prof. Wm. B. Howard, Principal of the Phoenix High School, Commissioner Prof. Howard is one of our best teachers, thorough, precise, and will bring to the office a vast fund of useful knowledge. The people of the Second District have long since made up their minds that they were not to be outdone in electing good School Commissioners.

The present officers of the Good Templars' Lodge are: Rev. J. H. Alsever, W. C. T.; Miss Sina Niles, W. V. T.; Elezer Robinson, W. S.; E. T. Russell, W. R. S.; Miss Frank David, W. T. W.; Mr. Hathaway, W. O.; H. Odner, W. M.; Miss Ellen Tilton, W. A. M.; Miss Lettie Wolf, W. L. G.; E. Hewitt, W. O. G.; R. W. Clayton, P. W. C. T.; J. S. Colner, L. D.

Mr. E. T. Russell commenced last Monday teaching the higher department of the school at Central Square. We congratulate the Trustees of Central Square in being so fortunate as to secure the services of Mr. Russell. The Central Squarites may depend that their children will improve and become obedient, not by arbitrary power, but by the great law of love, so that perfect order will be maintained.

A Beautiful Chromo.

Miss M. Alice Phelps is in town canvassing for the sale of a beautiful Chromo entitled "Beatrice." This is not a cheap picture, such as are often offered at the present day as premiums, &c. The manufacture of chromos is not deteriorating into the mere production of cheap dummies, but, on the other hand, is steadily advancing to new and grand achievements, and daily finding new favor in the eyes of true lovers and judges of art.

This is one of the finest productions of the day. Many even of our beautiful and good pictures are mere fancy productions, having no original value in the brain of the artist. This is a picture from life, the head of a celebrated historical character.

Beatrice di Cenci was the daughter of Count Nicolo Cenci, a Roman of the 16th century. He caused the death of two of his sons, and subjected Beatrice to imprisonment, torture, starvation and that which was worse than all these. Beatrice succeeded in laying her complaint before Pope Clement VIII, but it was unheeded. Cenci was executed. Authorities differ as to whether Beatrice had or had not a part in the assassination; but those considered the most reliable say she had no knowledge of the plot. But she was accused of perjury, arrested, tried, convicted, condemned, and executed September 13th 1599. Many of the most illustrious families of Rome interested in her behalf, but without avail, and the life of more than one Roman youth was sacrificed in the fruitless endeavor to liberate her. Guido's celebrated portrait, now in the Palazzo Barberini at Rome, is said to have been taken immediately before her execution.

When the executioner bound her hands, Beatrice said, "You bind my body for destruction, but my soul for immortality."

What Others Say of Us.

The Mexico Independent appears this week as the Independent and *Deaf Mute Journal*, enlarged and with new types. It now becomes the organ of the deaf mutes of New York State. We have no doubt that the prosperity it has reached under the shrewd management of Mr. Humphries will be increased under the new arrangement. We congratulate the paper and its editor on its improved appearance.—Osw. Press.

A HANDSOME JOURNAL.—The Mexico Independent and *Deaf Mute Journal* comes to us this week in a new dress throughout. The heading is finely executed, and the entire paper is a pride to its owner and publisher. It is now an eight column paper printed clearly and well set.

The *Deaf Mute Journal* will be found on the first page, while the remainder of the paper is still devoted to the interests of Mexico and vicinity, and the distribution of general news. As it has always been a journal of journals among writers so will it continue to be. We congratulate its proprietor upon its beautiful appearance.—Osw. Advertiser.

NEW DRESS.—The Mexico Independent and *Deaf Mute Journal* makes its appearance this week in a new dress, neat and tasty, and enlarged to eight columns. Mr. Humphries has labored with zeal and energy for a number of years, and the appearance of his paper to-day, in sufficient evidence of his success.—Osw. Palladium.

The "Mexico Independent" comes to us this week in a fine new dress, and with enlarged pages—evident signs of prosperity, a prosperity won by the careful industry which characterizes its editor, Mr. Henry Humphries—and which is abundantly deserved. The Independent receives splendid support from the people of Mexico and Oswego County and its friends are proud of its success.—Watertown Times.

The Mexico Independent has put on its new dress, which is very successful indeed. Editor Humphries has exercised good judgment in his enlargement, and the Independent is now one of the handsomest of our exchanges.—Jefferson Co. Journal.

ENLARGED.—The Mexico Independent and *Deaf Mute Journal* have been considered, and comes out in a new dress in an enlarged form. The general "look" of the paper was so materially changed for the better, that we had quite a difficulty in recognizing our old friend. Success to your friends, is our wish.—Oswego Gazette.

THE MEXICO INDEPENDENT.—This paper comes to us enlarged and substantially improved with new type and new head, &c. The Independent in its new attire compares favorably with the country press throughout the State. Mr. Humphries makes it an excellent local paper and prosperity and progress will be new things to his establishment. We wish him well and are rejoiced at his success.—Fulton Patriot.

PROSPERITY.—The first number of the Mexico Independent, enlarged and in a new dress, has made its appearance upon our table. It is much improved, both in matter and make-up, and is now one of the most acceptable of our rural exchanges. We are glad to chronicle the success of this, our contemporary, and hope the proprietor, friend Humphries, will not be puffed up by his prosperity, but on the contrary, will recognize his neighbors who have to wear their old clothes until they can be changed for new ones. Give us your friend Henry, and accept our congratulations upon the improved appearance of your consistently conducted journal.—Bonville Herald.

The Mexico Independent comes to us in its new dress looking neat and tasty, with a large quantity of select reading matter. Mr. Humphries is a gentleman every way worthy of the prosperity that this enlargement of his paper indicates.—Lake Side News.

THE PRESS.—The Mexico Independent, in whose office we learned our trade, and in whose office our first editorial efforts appeared, comes to us this week enlarged to an eight-column paper, and with an entire new dress, which greatly improves its appearance. We are glad to note these signs of prosperity in the business of our old employer, and hope that the patronage of the Mexicans will increase in proportion to the improvement of the paper.—Canastota Herald.

The Mexico Independent came to us last week enlarged, and in a new dress. We congratulate friend Humphries, and are pleased to note this evidence of his prosperity. The people of Mexico have generously patronized their paper, and will take pride in its success.—Governor Times.

DEAR MR. HUMPHRIES:—There were two of us Mexico boys together, when some one brought up our old friend the other day. It consisted of two newspapers. We had been looking for them. We had expected something new. But we were not prepared for what we saw.

The paper met our expectations; the new bright type; the interesting historical sketches; the crowded local columns, and the two new departments; and then a promise of a story by Miss Beebe. We have come to believe that it is "never yours, but it yours."

But they say a boy's opinion is valueless. If that was not so, I would say to you that you are wonderfully successful with the new Independent. As it is well you accept a boy's congratulations and best wishes.

With gratitude for what personally I owe you, I am sincerely yours, Hamilton College, Nov. 18, 1872.

[Thanks to our contemporaries for their flattering notices, and to our young friend at college, whose opinion we value.—Ed.]

Literary Notes.

Gobeys' Lady's Book.—The illustrations in the December number are of the usual style in which Gobeys presents them to his subscribers. The steel engraving, one handsome plate title-page, a fashion plate, a colored plate of all stockings, Christmas Eve, and Christmas Morning, companion pictures, and an extra number of fashions expressly selected for dress occasions of all kinds.

The literary matter is made up of an excellent class of stories suitable for Christmas reading. Marion Harland's story, "Ettie's Hero," is particularly good.

In the January issue, Marion Harland will commence a new novelette, under the title of "Carrying Weight," which will be continued through the year.

THE AMERICAN FARMER'S ADVOCATE.—Leads the agricultural press for its enterprise and energy. The Advocate Publishing Company, Jackson, Tenn., offers it free with any \$2.00 or higher priced paper or magazine in the United States, and at only fifty cents advance with others. This for a large sixteen page monthly filled to overflowing with the most valuable and entertaining matter for the farmer.

CHEAP READING.—In order to introduce the American Stock Journal into the homes of new readers, the enterprising publishers, have put up 300,000 copies, in packages of three each, which they offer to send free to all who enclose stamp to pay postage. As the three numbers contain near 100 pages of choice articles, valuable receipts, engravings of farm buildings, horses, cattle, sheep, hogs, dogs, poultry, pigeons, &c., we hope all our subscribers will send for it, also for a show bill and premium list, as splendid inducements are offered to Agents and subscribers. Address, N. P. Boyer & Co., Parkersburg, Chester County, Pa.

SERIAL STORY.

On the first of January, 1873, we shall commence in the columns of the INDEPENDENT the publication of a serial from the pen of Miss EMMA N. BEEBE, who has for some time past assisted in the editorial duties of this office. It will be entitled

CHARITY BOSTON,

and will be a story of village life, not sensational, but none the less valuable on that account, many of its incidents and characters being drawn from real life. Let those who want the story subscribe early.

The authoress yields a ready and graceful pen, and from what we know of her ability as a writer, we have no hesitancy in saying that the story will be of surpassing interest.

The Eclectic Public.

Wednesday night the Eclectic Society connected with our Academy gave a Public, which, for excellence, has not been surpassed for years. The chapel was crowded at an early hour, and the audience waited patiently for the exercises to begin. At half-past seven the members filed in and took their position on the stage. The exercises were as follows:

PRAYER.

Introductory.—Address, W. R. Alsever. Recitation.—Burial of Little Nell, Hattie Richardson.

MUSIC.

Oration.—Popular Opinions, E. W. Kinno.

Essay.—False Glimmer, Ida Griffin.

Declaration.—John Burns of Gettysburg, G. Myers.

MUSIC.

Debate.—Ought the right of suffrage to be restricted by a property or an educational qualification? Affirmative, Charles Wright. Negative, John Jewell.

MUSIC.

President's Address.—Action and Reflection, Myron Collins.

MUSIC.

Paper.—F. H. Peck.

MUSIC.

The debate and the paper were the most attractive features of the evening, but there was not an exercise on the programme that was a failure or anything approaching it. The Society during the fall term has been very prosperous, and the public we think, cannot help but be pleased with the entertainment furnished them.

It is the general opinion that the Society has never done as well in its public exercises as it did Wednesday night.

The school is in a flourishing condition, and it would be well for the young men and women who have heretofore been absent from home, attending other schools, to attend our own Academy, as the Faculty cannot be surpassed for thoroughness or experience. We hope to see a large school this winter, and we bid it God speed.

HEADACHE! Headache, Nausea and Nervousness, or "Brain Disease." The wonderful effect of Dr. J. Briggs' "Brain Tonic" for the speedy cure of the above mentioned very prevalent and distressing disease, has been proved by thousands of cases with unqualified success. In every case of the above enumerated complaints, it has never failed to give immediate relief.

CONSUMPTION.—This fatal and dreaded disease, Dr. J. Briggs' "Brain Tonic" and Lung Tonic is a pleasant, agreeable and sure remedy for Coughs, Whooping Cough, Hoarseness, Bronchitis, Laryngitis, Sore Throat, Asthma, Consumption, and all diseases of the Throat, Lung and Chest.

But they say the most fatal kind of grain in the market. Every one has a sample from the little three-year old child to the aged grandparent, and to the soldier who has fought in the ranks of the army, who daily find themselves liable to its attack, and who daily find themselves liable to its attack, and who daily find themselves liable to its attack.
